

# Cultural Diverse - CITY

Exhibition Gallery at the Westchester Arts Council

In affiliation with the **Westchester Arts Council**, we developed a summer program for high school students. The participating students are chosen from the **White Plains Summer Jobs Project**. The program included instruction in digital photography, writing and journalism, photoshop and digital design. During the course of the six-week program, the students created a photographic documentation on **Cultural Diversity of the City of White Plains**. This culminated with an exhibition of the work at the Westchester Arts Council Gallery. The show opened in August 2005.
